

Nondisclosure and Limited Use License Agreement

All Purchasers must agree to the following terms:

I, James F. Palmer, the author (hereon as author) of the eBook (or book), *The Quantum Transformer Energy Converter Revealed*, and inventor of the QTEC technology, grant the purchaser of this eBook from the author a perpetual Limited Use License conditional upon the acceptance of verified identity of the buyer and any associates (such as partners or employees) and the signing of this document by the author, the purchaser and any associates involved and you agree to be bound by all copyright laws and the following:

This proprietary information is licensed to you, (the purchaser), not sold. This is a non-exclusive, non-transferable license granted to the purchaser of the eBook solely by the author. This agreement is null and void without proof of purchase from the author, which will be kept on file with the author. The purchaser must document any associates having access to this proprietary information and fill out separate page 2 forms and provide to the author immediately. You are granted permission to use this information solely for your own personal or company in-house applications. It is acceptable to build a QTEC device for yourself or a company may build a unit for their self, provided nondisclosure to third parties is respected and all associates trusted with the information also fill out separate page 2 forms. Your associates must agree to not use the proprietary information in any way outside of the purchaser's permissions given here without also purchasing a license from me or my associates. You may not make this information available on websites, forums, clubs or private individuals etc except within the permissions given here and as long it would not hurt future sales by the author or his authorized affiliates of this proprietary information. You may make demonstrations and show any QTEC device provided none of the unique details of theory or construction are revealed. You may recommend the book at anytime. You may not sell, represent the author or inventor, distribute or otherwise provide this information to third parties nor will you build and sell machines/parts based on this information to others or to commercial interests. You may not alter the eBook or create derivative works without authority. You may keep a backup copy for yourself. You are permitted to write/speak brief quotes from the book to enlighten any audience if it does not reveal proprietary details. You may not suggest the QTEC device is your own invention or intellectual property in any way. You agree to give credit to the author in this work for the invention and information provided. You agree to leave the author or affiliates harmless of
